

## Why Use Audax<sup>®</sup> Cameras ?

### Statistics from trials include:

- 40% reduction in complaints against police.
- 30% reduction in officer time spent on paperwork.
- 10% reduction in violent crime.
- Enhanced staff safety (members of the public far less likely to behave in an abusive / aggressive manner if they know they are being recorded).
- Enhancing staff professionalism and reassuring to the public.
- Reduction in unfounded / malicious complaint investigations by providing impartial, accurate evidence.
- Reduction in case / report preparation leading to time / cost savings.
- Reduced liability / duty of care compliance.
- Verifying training / development needs or good practice.

- Audax<sup>®</sup> are the worldwide leaders and pioneers in developing Body Worn Video (BWV) technology since 2005.
- Audax<sup>®</sup> products are trademarked and used by professionals across the world.
- Audax<sup>®</sup> were the first UK security company ever funded by the EU H2020 SME Instrument Phase 2 programme.

Co-funded by the Horizon 2020 program of the European Union

**Audax cameras comply with The UK Home Office Technical Guidance (July 2018), for both the mandatory and the desirable features required for Body Worn Video devices.**

### Key Points to aid in camera selection:

- Robust, waterproof and lightweight ensures a comfortable and hands-free day-to-day use.
- Highly flexible and portable system with long battery lifetime for entire shift.
- Non removable fixed memory for data security.
- Full recording integrity: no files can be altered or deleted by the user or viewed should the device be lost.
- Year/Month/Day/Hour/Minute embedded as a watermark on the video along with user & device ID and GPS location.
- Camera buttons can be easily activated and used in all climates and conditions.
- Built in GPS and secured 2.0 inch colour LCD display for accurate reporting and sharing of information.
- 1080p / 720p HD selectable with a 140° lens to capture all of the action.
- Rapid collection and generation of high quality evidence data recognised in courts.
- Pre-event recording: video and audio (record only what is useful)
- Post-event recording: show the complete 'story'.
- Open standard video format: non-proprietary and can be played on VLC Player.
- Data and evidence securely stored and transferred via USB & ONLY by password encrypted and protected software.
- Ability to take snapshots, still images.
- Night vision recording capable up to 10 M.
- Secondary camera input, can connect a head camera too.
- Range of mounts / pouches / harnesses etc. all available.

Audax<sup>®</sup> are product award winners.

Audax<sup>®</sup> products are independently tested and certificated.

- "I cannot think of any [other] single intervention in the history of policing that dramatically changed the way that officers behave, the way that suspects behave, and the way they interact with each other".
- "There can be no doubt that body-worn cameras increase the transparency of frontline policing. Anything that has been recorded can be subsequently reviewed, scrutinised and submitted as evidence".
- "No other intervention 'in the history of policing' had seen such a profound effect".
- "The recording of interactions with the public increases accountability on both sides".
